TerraMax

Dry™

Dry Inoculant for Soybeans

Directions for Use:

Use at a rate of 2 ounces per unit of seed. Mix well with seed to assure even coverage. Plant as soon as possible after treatment. Avoid breathing dust.

Directions for Application:

Mix dry product with seed to be treated. Stir in until seed is coated. Apply at a rate of 2 oz. per unit of seed. Store in a cool, dry place. Avoid freezing temperatures. Use before expiration date. Open package only when ready to use.

Additional Instructions:

When planting soybeans in virgin soil, or soils with no soybean rotation the last 3-4 years, or soil that may require special attention, TerraMax recommends TerraMax Soybean Inoculant and a soybean in furrow application when planting to intensify soybean nodulation.

Application Rate:

2 oz per 50 lbs or 60 g per 22.7 kg.
This package treats 40 units or 2000 lb seed or 908 kg seed.

Limited Warranty: TerraMax, Inc. guarantees that this product conforms to its label description and is suitable for its intended use when used in accordance with the label directions before the expiration date. TerraMax, Inc. or its representatives must be notified of any field complaint within sixty (60) days after planting. TerraMax, Inc.'s sole obligation under the warranty shall be to refund the purchase price. TerraMax, Inc. shall not be liable for and disclaims all consequential, incidental and contingent damages whatsoever. Without limiting the foregoing, TerraMax, Inc. shall not be responsible for loss or partial loss of crop from any cause whatsoever. The limited warranty is in lieu of other warranties, expressed or implied. This limited warranty is void where prohibited by law.

NOT A PLANT FOOD PRODUCT
